Hope One is a community outreach vehicle staffed with highly trained professionals in the field of mental health and substance abuse prevention and recovery. The goal of Hope One is to provide the community with information, resources, and immediate access to services and treatment facilities to get back on the road to recovery. Amid the Coronavirus Pandemic, some individuals may be facing additional hardship due to the rise of unemployment and unavailability of essential items. As a result, Operation Helping Handbags filled with COVID-19 Protective and Relief essential items will be available on the van.

*A journey of a thousand miles begins with a single step.
